ALLEY CLEAN UP – JOHN HOUSDEN:

BUSINESS SALES TAX QUESTION – MIGUEL CAMPOS:
Miguel Campos presented on behalf of several business owners with the complaint of a particular business selling items, and not collecting tax on them. They believe this is unfair, and that because the business in question is owned by City Council Member Hurtado, they feel the City is overlooking this issue. After much discussion, it was noted that while the non-reporting of sales tax is an issue, the City does not regulate tax reporting to the Department of Revenue, nor is it giving preferential treatment to the business in question. Finance Director Ruiz noted that this topic has been brought up in the past by other business owners regarding other businesses operating in Brewster. The City recommended to the persons with the complaint that they contact the DOR, and Ruiz stated she has the name and number of the person to contact. The City will, however, check into this further and review the DOR reports – although it may be inconclusive.

• Centerline painting by the WSDOT is completed.
• DCPUD has not received any bids on the park restroom project. They are going to wait until spring of 2019 and put it back out for bids.
• Shoreline Reinforcement Project is near completion. Rains Contracting will replace all sprinkler lines that were damaged from the project. Council Member Housden noted that some of the cement blocks are not set correctly presenting a trip hazard. Webster asked Housden to walk these blocks with him to show the areas of concern so it can be addressed by the contractor.
• Horizon/Verizon Tower installation is moving forward. It will go out to bid in the 4th quarter of 2018 with construction planned to begin in May-June of 2019.
• Dewatering device has been sold to the City of Waitsburg and they are very pleased with it.
• The Canyon Well 75hp pump had a clay valve failure. Currently two City employees are having to “babysit” the well until the replacement valve arrives and is installed. O’Connell Drilling fixed what they could and set up a bypass. The new valve should be here in a couple of days, with the 6” valve still being about 6 weeks out for arrival. The well pump has a bit of a wobble in it now, and may need to be replaced this winter or next spring when the water demand is down. The cost of replacing the faulty valves is around $11,000.
• Nathan Brown would like to coordinate an alley spring cleanup/City clean up through the local church groups. Webster stated that the City can provide dumpsters and garbage bags. The group is also interested in doing a puncture vine awareness and ways to abate them.
• City owned facility inspections will begin this year.
• Public Works Director Webster is seeking ratification on a motion to purchase the 1993 International dump truck with snow plow, which was approved for a total of $20k at the August Council Meeting. The total purchase price - including tax and license - was $21,500. He is seeking approval for the additional $1,500.

**MOTION:** Council Member Hurtado made the motion to ratify the purchase authorization of the 1993 International dump truck with plow, for $1,500 more than the original motion of $20K made at the August Council meeting. Council Member Rieb seconded the motion and it passed unanimously.

**JUB UPDATES:**

• The warranty period for the water tank replacement project ends on October 24th. A walkthrough will be performed to identify the remaining warranty items to be addressed prior to the period ending.
• Blue Star Enterprises is ready for their closeout, with a final change order submitted to adjust the bid quantities and installed quantities has been submitted as well as the final application for payment. Additional test well sites are being explored around the City. Currently, the well project has been held up due to the lack of a well site, however, they will continue to move ahead with finding good quality water.
• GIS mapping of the sewer system is continuing. We will start sewer line jetting to get ahead of lateral GIS mapping (locating the lines to the residences).
• Water system cleaning evaluation is moving forward with potential location identification for cleaning alternatives. This will most likely be completed in the spring to minimize service disturbances during harvest.
• The General Sewer Plan kick off meeting was held last week and they are beginning to gather information.

**REC CENTER UPDATES:**

• Public Works Director Webster checked into the roof replacement costs for the Rec Center. He stated it would cost right around $60K for 3-tab/composite shingles and upwards of $165K for standing seam metal roofing. This is something that needs to be considered in the coming year and will be discussed further at the October 10th Budget Workshop.
• Mayor Smyth noted that he recently visited the Boys & Girls Club, located at the Rec Center. He said he was very disappointed to see how dirty and unkempt it was. He stated that the City will clean, paint and perform small repairs so that it will be clean and presentable to the patrons. The Boys & Girls Club will be required to keep it clean and perform monthly cleanings and minor repairs.

**ADJOURNMENT:** With there being no further business to come before the Council, the meeting was adjourned at 7:35 p.m.
